

Jesus is the light of the world John 8:12

Colour in the words and decorate the circle which will become your sundial.

Cut out the circle.

With the sundial on a flat surface, use a big blob of blue tac or playdough to stand the candle in the middle of the central cross.

When it is sunny at home, take it outside, lining it up with north, and see where the candle's shadow falls. Using a pen or pencil, make a mark on the edge of the sundial showing where the shadow falls at each hour of the day.

When it is dark at night, you can bring it inside and light the candle to remind you that Jesus always brings light into our darkness.
